

# MATERIALS LIST

Basic polymer clay tool kit which includes; a smooth work surface, a pasta machine with table clamp, tissue blade (bring a new sharp blade and an older dull one if you have one), and your favorite clay working tools.

notebook/sketch pad & pencils (one soft and one hard pencil)

tracing pad (if you already have one)

3M white paper tape or masking tape

#11 X-acto knife and replacement blades

various sculpting tools (whatever you have including small wood square tip ceramic tool for backfilling)

various size needle tools (whatever you have)

various wet/dry sandpaper in 60,100, 150, 220, 400 grit (bring a selection, not all grits)

0000 super fine steel wool

baby wipes

face/dust mask for dry sanding

shoebox size water container for wet sanding

Armor All (auto protectant spray as mold release agent if you have some)

liquid polymer

ruler/straight edge

small drafting angle

flush wire cutter (for finer wire)

needle-nose pliers w/wire cutter (to form and cut harder wire)

small #12 crochet hook (very small – for glue application)

spool of white thread (I use two weights, one thin & one thicker)

pin vise with small bits (bring whatever you have. I use #61-80 and 1/32” – 1/8” bit sets with a pin vise)

stringing wire, cord or cable of your preference with clasps/findings for stringing pendants if you'd like to make a necklace(s). (I use Chris's Cables but they aren't cheap and most other stringing options will work.)

eye protection

cutting surface (or use back of pad)

A selection of Premo clay will be provided, but you may prefer other additional colored clays (I use Premo, but most other brands will work)OPTIONAL: Beading wire, nylon jaw pliers, thin flexible small palette knife, old soft toothbrush, plastic coated Jumbo and/or regular paper clips (several colors), colored 24 gauge AMACO “Fun Wire” (several colors)
